For the first time, more puzzles are at your disposal than you can count, much more than in any previous version! Your chosen formation will determine whether you will move through the mine at a pleasant pace or at breakneck speed! Will you be running for your life? Are you sure? Solve the remaining 10 levels and you can access the third and final level! In addition, 3 special levels, "The Wall," "Prison," and "Sensory" have been included, in addition to the basic features of the original puzzle. And you can share your creations with others on Facebook! "Link" your puzzle on Facebook and display it on your wall, and if someone likes it, you will receive a notification of your new follower! For the first time, playing "Zombie Blauvacation" has become a full screen. You can play the game at any orientation you like, it will still be perfect for you. You can play in a landscape mode (orientation: Landscape) or in a portrait mode (orientation: Portrait) without limitations! FULLSCREEN MOBILE PORTABLE GAME Puzzle & Play develops games for smartphones, tablets, and PDAs. Puzzle & Play released a version of "Zombie Blauvacation" exclusively for the iPhone. On top of the update to the puzzle game, the game was also optimized for play on a phone screen. The game was well received among iPhone users and has been downloaded by over 1 million people! We would like to thank all the players who tried the game on the iPhone. We have provided a version for Android users as well as for BlackBerry OS users. We would like to thank all the users who tried the game. Puzzle & Play has recently released a port of "Zombie Blauvacation" for the iPad. Since this version is developed on a completely different codebase and from the same development team, there are some differences between the iPad version and the iPhone version. While the iPhone version offers an unlockable level, the iPad version offers an unlockable level that features more jewels. The iPad version has a different and fully automatic puzzle mode. You will not be able to perform the easy puzzles you are used to on the iPhone version, but the new game mode allows you to solve puzzles of any difficulty. We would like to thank all the players f3e1b3768c
