Let's start learning. Table of Contents: Storyboards Storyboards are a powerful, visual way to tell a story. They're made up of pages, panels, symbols, and timelines. Storyboards can be printed, displayed on screen, or used for digital storytelling. In this tutorial, I'll walk you through how to use Storyboard Creator to create your own storyboard. We'll start with creating a storyboard and then work our way through creating each component. For this tutorial, I'm going to use a few characters. It's easier if I use different characters to avoid confusion. We're going to start with a character named "Smith" and use him to tell the story. Smith is a young man who likes to wear a hat. After creating Smith, I'll change his name to "John" and use him to tell another story. John is also a young man. He's in a relationship with a pretty girl named "Sue". I'm going to create a few pages and panels. I want to start with the title of the storyboard. I'll create the title page and add a symbol. I'm going to put this page at the top of the storyboard. I'll use the page symbol to create
