## AutoCAD 2006 WIN

Autocad 2020 Why doesn't the documentation say that the software is free for each year or family? Is that because its too expensive to buy? Is this still the correct information on the Autocad for Linux? A: The TOS for Autocad 2010 is no longer being updated with new features (although there is one exception). If you want to use all the Autocad 2010 features, you need to download the latest version of Autocad.

Codfish oil, an omega-3 fatty acid supplement, attenuates the development of airway hyperresponsiveness in late phase allergic asthma. The purpose of this study was to investigate the effects of dietary supplement with cod-derived omega-3 fatty acids on the development of AHR in a late phase allergic mouse model. AHR was induced by repeated intranasal ovalbumin (OVA) and s.c. administration of OVA for 5 days. At 14 days after the last OVA challenge, mice were exposed to histamine aerosol for 30 min and enhanced pause (Penh) was measured. After a further 2

---

weeks, the effect of dietary supplementation with cod oil was investigated. We found that cod oil significantly attenuated the development of late phase AHR. In addition, the expression of T-bet, a Th1-specific transcription factor, was significantly decreased in the lung tissues, but not in splenocytes, from the cod-supplemented group compared with those from the control group. These results suggest that cod oil attenuates the development of late phase AHR in a Th1-dominated allergic asthma model and inhibit lung Th1 infiltration by down-regulating the expression of Th1-specific transcription factors in the lung tissues.

Asymmetric 1,4-additions of chiral  $\beta$ -hydroxy silyl ketene imines to  $\alpha,\beta$ -unsaturated aldehydes: absolute stereochemistry of the chiral oxocarbenium ions derived from 2-arylmethyl-substituted silyl ketene imines. The 1,4-addition of chiral  $\beta$ -hydroxy silyl ketene imines to  $\alpha,\beta$ -unsaturated aldehydes affords oxocarbenium ions with an unprecedented (2S,4R)- or (2R,4S)-configuration. The absolute configuration of the chiral oxocarbenium ion derived from the reaction of a (Z)-
