What's New In TabExplorer?

TabExplorer helps you customize the looks of your Windows Explorer and enhance its functionality by adding multiple tabs. The tool sports a clean and intuitive layout that allows you to carry out most operations with minimum effort. The program gives you the possibility to customize the appearance of your Windows Explorer to make it resemble a modern web browser. You can open multiple tabs for the current Windows Explorer window and activate the Rainbow Tab mode for making the utility automatically color your tabs with preset colors. What's more, you are allowed to enable or disable the tool's functions and run the program at Windows startup. Since it doesn't comprise many configuration settings, even rookies can master the entire process with just a few clicks. During our testing we have noticed that TabExplorer carries out a task very quickly and without errors. As it would be expected from such a small utility, it remains light on system resources, so it doesn't burden the overall performance of the computer, nor interfere with other programs' functionality. To sum things up, TabExplorer offers a simple yet efficient software solution when it comes to helping you add multiple tabs to your Windows Explorer with only a few clicks. It can be easily configured and installed by all types of users, regardless of their experience level. What's New in Version 1.2.13.3: - If you are using the Rainbow Tab mode, you can now choose between predefined or custom colors for the tabs. - You can now export the personalized colors, to be used later in the Rainbow Tab mode. - You can now quickly switch between predefined tabs colors and the Rainbow Tab mode. - You can now save the changes made to the program's configuration and restart it using "Restart" from the program's context menu. - You can now export the personalized colors, to be used later in the Rainbow Tab mode. What's New in Version 1.2.13: - If you are using the Rainbow Tab mode, you can now choose between predefined or custom colors for the tabs. - You can now export the personalized colors, to be used later in the Rainbow Tab mode. - You can now quickly switch between predefined tabs colors and the Rainbow Tab mode. - You can now save the changes made to the program's configuration and restart it using "Restart" from the program's context menu.
